

Combined Joint Task Force Operation Inherent Resolve

July 26, 2018
Release # 20180726--01
FOR IMMEDIATE RELEASE

Combined Joint Task Force - Operation Inherent Resolve Monthly Civilian Casualty Report

SOUTHWEST ASIA-- The Coalition has worked by, with and through partners since 2014 to defeat Daesh in designated parts of Iraq and Syria, liberating nearly 8 million Iraqis and Syrians from Daesh's brutal rule.

Throughout our air and ground campaigns, we have used deliberate targeting and strike processes to minimize the impact of our operations on civilian populations and infrastructure. Our assessments of civilian casualties are transparent, and we hold ourselves accountable through regularly published strike press releases and civilian casualty reports.

We are willing to work with all who bring allegations of civilian casualties to us, and we seek new or additional information or evidence through public sources, eyewitness accounts or self-reports. We have demonstrated willingness to re-assess past cases in the face of new or compelling evidence.

The Coalition conducted a total of 29,826 strikes between August 2014 and end of June 2018. During this period, based on information available, CJTF-OIR assesses at least 1059 civilians have been unintentionally killed by Coalition strikes since the start of Operation Inherent Resolve.

This month's civilian casualty total reflects the re-addition of 15 casualties from a credible report carried in the April 2018 reports that was mistakenly left out of the May 2018 report.

In the month of June, CJTF-OIR carried over 314 open reports from previous months and received 45 new reports. The assessment of 125 civilian casualty reports have been completed. Sixteen reports were determined to be credible, resulting in 105 unintentional civilian deaths, while three were assessed to be duplicate and 106 were assessed to be non-credible. A total of 234 reports are still open.
