FOR IMMEDIATE RELEASE

SOUTHWEST ASIA -- The Coalition has worked by, with and through partners since 2014 to defeat ISIS in designated parts of Iraq and Syria, liberating nearly 8 million Iraqis and Syrians from ISIS's brutal rule and reducing its control of territory to less than one percent of what it had previously held.

We continue to employ thorough and deliberate targeting and strike processes to minimize the impact of our operations on civilian populations and infrastructure. This process includes thorough review and vetting of each target package prior to a strike, and another review after that strike. Our regular strike reports make our activities publicly accessible, and our monthly publication of civilian casualty reports makes our civilian casualty assessments similarly accessible to the public.

As we have demonstrated, we are willing to consider new civilian casualty allegations as well as new or compelling evidence on past allegations to establish accountability based on the best available evidence.

The Coalition conducted a total of 33,921 strikes between August 2014 and end of January 2019. During this period, based on information available, CJTF-OIR assesses at least 1257 civilians have been unintentionally killed by Coalition strikes since the beginning of Operation Inherent Resolve.

In the month of January, CJTF-OIR carried over 182 open reports from previous months and received 22 new reports, five of them were previously closed, but the CIVCAS cell reopened them due to new information. The assessment of 63 civilian

casualty allegation reports has been completed. Out of the 63 completed casualty allegation reports, 12 reports were determined to be credible and resulted in 67 unintentional civilian deaths. None of the reports were determined to be duplicate report and the remaining 51 reports were assessed to be non-credible. A total of 141 reports are still open.

Credible Reports—In each of the 12 incidents, the investigation assesses that all feasible precautions were taken and the decision to strike complied with the law of armed conflict. Coalition forces work diligently to be precise in our airstrikes during the planning and execution of airstrikes to reduce the risk of harm to civilians.

1. June 7, 2015, near Dali Hasan, Syria, via Airwars report. Coalition aircraft engaged ISIS fighters firing on friendly forces from a moving vehicle. Coalition aircraft executed a strike on the vehicle in self-defense of the friendly forces. Regrettably, it is more likely than not that seven civilians were unintentionally killed due to the proximity to the blast.

2. May 23, 2017, near Duweir, Syria, via Airwars report. Coalition forces had intelligence on an ISIS member traveling via motorcycle in Mayadin. Coalition aircraft struck the motorcycle. Regrettably, one civilian was unintentionally killed during the strike.

3. June 7, 2017, near Mahkan, Syria, via Airwars report. Coalition aircraft engaged an ISIS person of interest in a moving vehicle. At the moment of impact, a separate civilian vehicle passed the target vehicle. Regrettably, it appears that a civilian in the passing vehicle was unintentionally killed.

4. June 12, 2017, near Raqqa, Syria, via Airwars report. Coalition artillery targeted ISIS fighters. Regrettably, eight civilians were unintentionally killed and 24 civilians were unintentionally injured due to their proximity to the impacts.

5. June 15, 2017, near Raqqa, Syria, via Amnesty International. Coalition aircraft engaged ISIS fighters, a sniper position, and multiple defensive fighting positions. Unfortunately, 25 civilians were killed due to their proximity to the targets.

6. July 6, 2017, near Raqqa, Syria, via Airwars report. Coalition aircraft engaged armed ISIS fighters moving on a motorcycle. Regrettably, one civilian on foot was unintentionally killed due to their proximity to the blast. That same day in Raqqa, Syria the Coalition engaged ISIS fighters and an unmanned aerial vehicle launch site. Regrettably, one civilian was unintentionally killed due to their proximity to the launch site location.

7. August 2, 2017, near Raqqa, Syria, via Airwars report. Coalition aircraft conducted two airstrikes and one artillery strike. The airstrikes targeted one ISIS weapons cache and one ISIS command and control facility. Regrettably, one civilian was unintentionally killed in each of these strikes. On the same day the Coalition conducted one artillery strike on ISIS defensive fighting positions. Regrettably, one civilian was unintentionally killed as a result of this strike. Regrettably, these three strikes resulted in the unintentional death of three total civilians.

8. August 06, 2017, near Raqqa, Syria, via Airwars report. Coalition aircraft engaged an ISIS headquarters multistory building. Regrettably, four civilians were unintentionally killed and two civilians were injured as a result of the explosion.

9. August 13, 2017, near Raqqa, Syria, via Airwars report. Coalition aircraft engaged ISIS fighters utilizing a mortar system in a building used as a defensive fighting position. Regrettably, 12 civilians were unintentionally killed and six were unintentionally injured as a result of the blast.

10. January 20, 2018, near Bahrah, Syria, via self-report. Coalition aircraft engaged an ISIS fighter operating a motorcycle. Regrettably, one civilian was unintentionally killed as a result.

11. May 31, 2018, near Al Baghouz, Syria, via social media report. Coalition aircraft engaged an ISIS staging area. Regrettably, two civilians were unintentionally killed due to their proximity to the target location.

12. September 30, 2018, near Al Sousah, Syria, via self-report. Coalition aircraft engaged multiple ISIS vehicles, including a machine-gun equipped pick-up truck engaging friendly forces with machine gun fire. The ISIS vehicles were destroyed in the attack but regrettably a civilian was also unintentionally killed when his vehicle entered the target area after the weapons were released.

Non Credible Reports--After a thorough review of the facts and circumstances of each civilian casualty report, CJTF-OIR assessed the following 51 reports as non-credible. At this time there is insufficient information to assess that, more likely than not, a Coalition strike resulted in civilian casualties.

1. Feb. 22, 2015, near Salima, al-Shadadi, Syria, via Airwars report. After review of all available strike records it was determined that more likely than not civilian casualties did not occur as a result of a Coalition strike.
